

**GENERAL AGREEMENT**

**ON TRADE IN SERVICES**

---

**RESTRICTED**

**GATS OFFER**

**EUROPEAN COMMUNITIES AND THEIR MEMBER STATES**  
**Schedule of Specific Commitments**

**The European Commission sent this restricted document to the  
EU Member State governments on 10 March 2003.**

**It has been put in the public domain on 26 March 2003:  
<http://www.gatswatch.org/docs/EU-draftoffer-2.pdf>**

**Changes to the previous leaked version are marked yellow**

## INTRODUCTORY NOTE

- 1) The specific commitments in this schedule apply only to the territories in which the Treaties establishing the European Communities (EC) are applied and under the conditions laid down in these Treaties. These commitments apply only to the relations between the Communities and their Member States on the one hand, and non-Community countries on the other. They do not affect the rights and obligations of Member States arising from Community law.
- 2) The following abbreviations are used to indicate the Member States:

A Austria	B Belgium	I Italy
D Germany	IRL Ireland	
DK Denmark	L Luxembourg	
E Spain	NL The Netherlands	
F France	FIN Finland	P Portugal
GR Greece	S Sweden	UK United Kingdom
- 3) The rights and obligations arising from the GATS, including the schedule of commitments, shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.
- 4) A glossary of terms used by individual Member States is attached to this schedule.

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

Sector or subsector	Limitations on market access	Limitations on national treatment	Additional commitments
<b>I HORIZONTAL COMMITMENTS</b>			
ALL SECTORS INCLUDED IN THIS SCHEDULE			
	3) In all EC Member States services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators. <sup>1</sup>	3) a) Treatment accorded to subsidiaries (of third country companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Communities is not extended to branches or agencies established in a Member State by a third-country company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a third-country company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law. <sup>2</sup>	
		b) Treatment less favourable may be accorded to subsidiaries (of third-country companies) formed in accordance with the law of a Member State which have only their registered office in the territory of the Communities, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States. <sup>3</sup>	
		<b>Formation of Legal Entity</b> 3) S: A limited liability company (joint stock company) may be established by one or several founders. A founding party shall either reside in Sweden or be a	

<sup>1</sup> Explanatory Note: Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

<sup>2</sup> ~~With regard to Austria it applies also to modes 1 and 4.~~

<sup>3</sup> ~~With regard to Austria it applies also to modes 1 and 4.~~

		<p>establishment and the right to provide services by natural persons who do not enjoy regional citizenship in Åland, or by any legal person, without permission by the competent authorities of the Åland islands.</p> <p><del>S: Authorization required, normally from local authority, for acquisition of second homes by non-resident natural persons or foreign legal entities. If foreign acquisitions of second homes lead to increased real estate prices, authorizations may be denied.</del></p>	
	<p><b>Investments:</b></p> <p>F: Foreign purchases exceeding 33,33 per cent of the shares of capital or voting rights in existing French enterprise, or 20 per cent in publicly quoted French companies, are subject to the following regulations:</p> <ul style="list-style-type: none"> <li>- investments<sup>1</sup> of less than <del>50 million FF</del> <b>7.6 Euros</b> in French enterprises with a turnover not exceeding <del>500 million FF</del> <b>76 million Euros</b> are free, after a delay of 15 days following prior notification and verification that these amounts are met;</li> <li>- after a period of one month following prior notification, authorization is tacitly granted for other investments unless the Minister of Economic Affairs has, in exceptional circumstances, exercised its right to postpone the investment.</li> </ul>	<p>3) A: Branches of foreign joint stock companies (Aktiengesellschaften) and limited liability companies (Gesellschaften mit beschränkter Haftung) are required to obtain an authorization of the Federal Ministry which is competent for the type of business in question; authorization is subject to the discretion of the competent authority.</p>	
	<p>F: Foreign participation in newly privatized companies may be limited to a variable amount, determined by the government of France on a case by case basis, of the equity offered to the public.</p>		

<sup>1</sup> This procedure does not apply to investments in France in activities which are part of the exercise of official authority. The latter is to be understood in the sense of Article of the Treaty of Rome and the jurisprudence concerned.

<sup>2</sup> An assessment of the investment is made in light of the effect on the economy of the country. The criteria taken into account are among others: creation of new jobs; positive foreign currency balance; introduction of advanced technology; reduced industrial pollution; professional training for Portuguese workers; etc.

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

Sector or subsector	Limitations on market access	Limitations on national treatment	Additional commitments
	<p>E: Investment in Spain by foreign government and foreign public entities (which tends to imply, besides economic, also non-economic interests to entity's part), directly or through companies or other entities controlled directly or indirectly by foreign governments, need prior authorization by the government.</p> <p>P: Authorization<sup>2</sup> is required for investments by non-EC companies, when exceeding 20 per cent of the capital of the company or when the investments result in effective control or in strengthening of the decision making power. Foreign participation in newly privatized companies may be limited to a variable amount, determined by the Government of Portugal on a case by case basis, of the equity offered to the public.</p>		
	<p>I: Exclusive rights may be granted or maintained to newly-privatized companies. Voting rights in newly privatized companies may be restricted in some cases. For a period of five years, the acquisition of large equity stakes of companies operating in the fields of defence, transport services, telecommunications and energy may be subject to the approval of the Ministry of Treasury.</p> <p>F: For establishing in certain<sup>1</sup> commercial, industrial or artisanal activities, a specific authorization is needed if the managing director is not holder of a permanent residence permit.</p>		
		<p><b>Subsidies:</b></p> <p>3) Eligibility for subsidies from the European Communities or Member States may be limited to juridical persons established within the territory of a Member State or a particular geographical subdivision thereof. <sup>2</sup> **Except where otherwise indicated in this schedule, all other requirements of Community and Member States' laws and regulations regarding entry, stay, work and social security measures shall continue to apply, including regulations concerning minimum wages as well as collective wage agreements. In the case of A, commitments on movement of persons do not apply in cases where the intent or effect of such movement is to interfere with or otherwise affect the outcome of any labour/management dispute or negotiation.**

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

Sector or subsector	Limitations on market access	Limitations on national treatment	Additional commitments
	<p><b>the following categories of natural persons providing services:</b>  <b>(i) Intra-corporate transfers</b>            Unbound except for measures concerning the entry into and temporary stay<sup>1</sup> within a Member State, without requiring compliance with an economic needs test,<sup>2</sup> (except in FIN, where compliance with an economic needs test is required for persons possessing uncommon knowledge and may be applied in the case of transfers of partners), of the following categories of natural persons providing services:</p>	<p>persons referred to in the Market Access column and subject to the following limitations:            FIN: None of the categories offered under market access.</p>	
	<p>the temporary presence, as intra-corporate transferee,<sup>3</sup> of natural persons in the following categories, provided that the service supplier is a juridical person and that the persons concerned have been employed by it or have been partners in it (other than as majority shareholders), for at least the year immediately preceding such movement:  <b>Access is subject to the following conditions:</b></p>	<p><u>Residency requirements</u>            A: Managing directors of branches and juridical persons have to be resident in Austria: natural persons responsible within a juridical person or a branch for the observance of the Austrian Trade Act must be resident in Austria.</p>	
	<p>- the natural person concerned works within a juridical person, other than a non-profit making organisation, established in the territory of a WTO Member and has been employed by it or has been a partner in it (other than as a majority shareholder) for at least the year immediately preceding the date of admission</p>		

<sup>1</sup> The duration of "temporary stay" is defined by the Member States and, where they exist, Community laws and regulations regarding entry, stay and work. The precise duration can vary according to the different categories of natural persons mentioned in this schedule. With regard to Sweden, temporary entry and stay is limited to a two year period (extensions may be granted)

<sup>2</sup> All other requirements of Community and Member States' laws and regulations regarding entry, stay, work and social security measures shall continue to apply, including regulations concerning period of stay, minimum wages as well as collective wage agreements.

<sup>3</sup> An "intra-corporate transferee" is defined as a natural person working within a juridical person, other than a non-profit making organisation, established in the territory of a WTO Member, and being temporarily transferred in the context of the provision of a service through commercial presence in the territory of a Community Member State; the juridical persons concerned must have their principal place of business in the territory of a WTO Member other than the Communities and their Member States and the transfer must be to an establishment (office, branch or subsidiary) of that juridical person, effectively providing like services in the territory of a Member State to which the EEC Treaty applies. In ITALY "intra-corporate transferee" is defined as a natural person working within a juridical person constituted as a SPA (joint stock company) or a SRL (capital stock company with limited responsibility).

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

<sup>1</sup> **Provision of legal services is only authorized in respect of public international law, EC law and the law of any jurisdiction where the service supplier or its personnel is qualified to practice as a lawyer, and, like the provision of other services, is subject to licensing requirements and procedures applicable in EC Member States. For lawyers providing legal services in respect of public international law and foreign law this may take the form of compliance of local codes of ethics, use of home title (unless recognition with the host title has been obtained) and either registration within the host country Bar or a simplified admission to the host country Bar through an aptitude test. Legal services in respect of EC law shall in principle be carried out by or through a fully qualified lawyer admitted to a Bar in the EC, and legal services in respect of the law of a Member State of the EC shall in principle be carried out by or through a fully qualified lawyer admitted to a Bar in the EC, and legal services in respect of the law of a Member State of the EC shall in principle be carried out by or through a lawyer admitted to the Bar of that Member State. Full admission to the Bar in the EC might therefore be necessary for representation before courts and other competent authorities in the EC since it involves practice of EC and national procedural law.**

<sup>2</sup> Limited liability companies are allowed, subject to certain conditions.

<sup>3</sup> When not appearing under the title "advokat" foreign lawyers may freely offer legal advice activities.

(i) Handling of addressed written communications on			

<sup>1</sup> While discussions on classification in this sector are still ongoing, the commitment is listed according to the proposed classification that has been notified to WTO by the EC and its Member States on 23 March 2001 (WTO document S/CSS/W/61), without prejudice to the outcome of the discussion on the classification of postal and courier services. In addition, the EC recalls its readiness to define and make negotiated additional commitments in this sector. These commitments could be summed up in a reference paper on postal and courier services.

<sup>2</sup> The term “handling” should be taken to include clearance, sorting, transport and delivery.

<sup>3</sup> “Postal item” refers to items handled by any type of commercial operator, whether public or private.

<sup>4</sup> “Items of correspondence”: a communication in written form on any kind of physical medium to be conveyed and delivered at the address indicated by the sender on the item itself or on its wrapping. Books, catalogues, newspapers and periodicals are not regarded as items of correspondence.

<sup>1</sup> E.g. letter, postcards.

<sup>2</sup> Books, catalogues are included hereunder.

<sup>3</sup> Journals, newspapers, periodicals.

<sup>4</sup> Express delivery services may include, in addition to greater speed and reliability, value added elements such as collection from point of origin, personal delivery to addressee, tracing and tracking, possibility of changing the destination and addressee in transit, confirmation of receipt.

<sup>5</sup> Provision of means, including the supply of ad hoc premises as well as transportation by a third party, allowing self-delivery by mutual exchange of postal items between users subscribing to this service. Postal item refers to items handled by any type of commercial operator, whether public or private.

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

Sector or subsector	Limitations on market access	Limitations on national treatment	Additional commitments

Telecommunications services are the transport of electro-magnetic signals - sound, data image and any combinations thereof, excluding broadcasting <sup>2</sup> . Therefore, commitments in this schedule do not cover the economic activity consisting of content provision which require telecommunications services for its transport. The provision of that content, transported via a telecommunications service, is subject to the specific commitments undertaken by the European Communities and their Member States in other relevant sectors			
All sub-sectors			The European Communities and their Member States undertake additional commitments as contained in the attachment, all parts of which are equally binding.

<sup>1</sup> Excludes voice telephone, packet and circuit switched data services, telegraph, telex, mobile radio telephone, paging and satellite services.

<sup>2</sup> Broadcasting is defined as the uninterrupted chain of transmission required for the distribution of tv and radio programme signals to the general public, but does not cover contribution links between operators.

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

Sector or subsector	Limitations on market access	Limitations on national treatment	Additional commitments
	<p>FIN : The general horizontal requirements for legal entities in GATS/SC/33 shall not apply to the telecommunications sector except as :</p> <ul style="list-style-type: none"> <li>- half of the founders, half of the members of the board of directors and the managing director must have permanent residence in the European Economic Area. If the founder is a legal person, it must have residence in the EEA.</li> </ul>	<p>FIN : The general horizontal requirements for legal entities in GATS/SC/33 shall not apply to the telecommunications sector. Requirements concerning the Åland islands shall continue to apply.</p>	
	<p>1) <del>None except for:</del>  <del>P: basic services can be supplied only by companies established in Portugal.</del>  <del>GR: access through S.A. and the company must be exclusively engaged in the supply of telecommunication services.</del></p>	<p>1) None</p>	
	<p>2) None</p>	<p>2) None</p>	
	<p>3) None except for<sup>1</sup>:  <del>GR: access through S.A. and the company must be exclusively engaged in the supply of telecommunication services.</del>  P : The direct or indirect participation of natural persons, who are non-nationals of EC Member States or non-EC companies or firms in the capital of companies supplying basic telecommunications services cannot exceed 25%.  F : Indirect: none. Non-EC natural or juridical persons may not hold directly more than 20% of the shares or voting rights of companies authorised to establish and operate radio-based infrastructure for the provision of telecommunications services to the general public. For the application of this provision, companies or firms legally established according to the laws of a Member State of the EC are considered EC juridical persons.</p> <p>4) ICT and BV Unbound except as indicated in the horizontal section</p>	<p>3) None  4) ICT and BV Unbound except as indicated in the horizontal section</p>	<p><del>P: The Government of Portugal has the intention of presenting to the Parliament draft legislation aiming at removing partially the present limitations on foreign equity participation in the capital of companies supplying basic telecommunication services no later than in 1998. In case of approval, the new legislation will be bound no later than in 1999.</del></p>

<sup>1</sup> Footnote for clarification purposes: Some EC Member States maintain public participation in certain telecommunication operators. EC Member States reserve their rights to maintain such public participation in the future. This is not a market access limitation. In Belgium, government participation and voting rights in Belgacom are freely determined under legislative powers as is presently the case under the law of 21 March 1991 on the reform of government-owned economic enterprises.

<p>7. FINANCIALSERVICES SECTOR<sup>1</sup></p> <p>1. The Communities and their Member States undertake commitments on Financial Services in accordance with the provisions of the "Understanding on Commitments in Financial Services" (the Understanding).</p> <p>2. These commitments are subject to the limitations on market access and national treatment in the "all sectors" section of this schedule and to those relating to the subsectors listed below.</p> <p>3. The market access commitments in respect of modes 1) and 2) apply only to the transactions indicated in paragraphs B.3 and B.4 of the market access section of the Understanding respectively.</p> <p>4. Notwithstanding note 1. above, the market access and national treatment commitments in respect of mode 4) on financial services are those in the "all sectors" section of this schedule.</p> <p>5. The admission to the market of new financial services or products may be subject to the existence of, and consistency with, a regulatory framework aimed at achieving the objectives indicated in Article 2(a) of the Financial Services Annex.</p> <p>6. As a general rule and in a non-discriminatory manner, financial institutions incorporated in a Member State of the Community must adopt a specific legal form.</p>			

<sup>1</sup> Unlike foreign subsidiaries, branches established directly in a Member State by a non-Community financial institution are not, with certain limited exceptions, subject to prudential regulations harmonized at Community level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the Communities. Therefore, such branches receive an authorization to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalization and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalization, and the localization in the Member State concerned of the assets representing the technical reserves and at least one-third of the solvency margin. Member States may apply the restrictions indicated in this schedule only with regard to the direct establishment from a third country of a commercial presence or to the provision of cross-border services from a third country; consequently, a Member State may not apply these restrictions, including those concerning establishment, to third country subsidiaries established in other Member States of the Communities, unless these restrictions can also be applied to companies or nationals of other Member States in conformity with Community law

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

SRL	Società a Responsabilità Limitata (company with limited	responsibility)

For Italy the following professional services are covered in the EC offer:

Ragionieri-periti commerciali	Bookkeeping accounting-auditing
Commercialisti	Bookkeeping-accounting-auditing
Geometri	Surveyors
Ingegneri	Engineers
Architetti	Architects
Geologi	Geologists
Medici	Doctors
Farmacisti	Pharmacists
Psicologi	Psychologists
Veterinari	Veterinarians
Biologi	Biologists
Chimici	Chemists
Periti agrari	Agricultural experts
Agronomi	Agronomists
Attuari	Actuarists

## NOTE TO THE SECTION ON INTERNATIONAL MARITIME TRANSPORT SERVICES

Where road, rail, inland waterways (and) (related) (auxiliary) services are not otherwise fully covered in this schedule, a multimodal transport operator (as defined below – 3) shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment, for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations. (« Reasonable and non-discriminatory terms and conditions » mean, for the purpose of this [additional] commitment the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date).

### DEFINITIONS

1. Without prejudice to the scope of activities which may be considered as « cabotage » under the relevant national legislation, this schedule does not include « maritime cabotage services », which are assumed to cover transportation of passengers or goods between a port located in a Member State and a port located in the same Member State, and transport of passengers or goods between a port located in a Member State and installations or structures situated on the continental shelf of this Member State.

2. « Other forms of commercial presence for the supply of international maritime transport services » means the ability for international maritime transport service suppliers of other Members to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
- (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
- (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
- (d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of the annex on telecommunications);
- (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
- (f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.

3. « Multimodal transport operators » means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

4. « Maritime cargo handling services » means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:

- the loading/discharging of cargo to/from a ship;
- the lashing/unlashing of cargo;
- the reception/delivery and safekeeping of cargoes before shipment or after discharge.

5. « Customs clearance services » (alternatively « customs house brokers' services ») means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.

6. « Container station and depot services » means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.

7. « Maritime agency services » means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:

- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- acting on behalf of the companies organising the call of the ship or taking over cargoes when required.

8. « Freight forwarding services » means (the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information).

9) Movement of equipment. International maritime transport suppliers can move/reposition equipment (i.e. empty containers, flatbeds etc.) on their vessels between ports **in a member state of the EC when no revenue is involved, except for: A, L where not applicable.**

10) International maritime transport suppliers can operate vessels of any flag for the purpose of pre- and onward carriage of the international cargo between ports in a member state of the EC, except for:

- **A, L where not applicable and;**
- **D, E, F, FIN, GR, I, P AND S by authorisation only.**

ADDITIONAL COMMITMENT BY THE EUROPEAN COMMUNITIES  
AND THEIR MEMBER STATES

**SCOPE:**

The following are definitions and principles on the regulatory framework for the basic telecommunications services underpinning the market access commitments by the European Communities and their Member States.

**DEFINITIONS:**

*User* mean service consumer and service suppliers.

*Essential facilities* mean facilities of a public telecommunications transport network and service that

- a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- b) cannot feasibly be economically or technically substituted in order to provide a service.

*A major supplier* is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- a) control over essential facilities; or
- b) use of its position in the market.

**1. COMPETITIVE SAFEGUARDS:**

**1.1. Prevention of anti-competitive practices in telecommunications:**

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

**1.2. Safeguards:**

The anti-competitive practices referred to above shall include in particular:

- a) engaging in anti-competitive cross-subsidization;
- b) using information obtained from competitors with anti-competitive results; and
- c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

**2. INTERCONNECTION:**

2.1. This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.

**2.2. Interconnection to be ensured:**

Within the limits of permitted market access, interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided<sup>1</sup>:

- a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates<sup>2</sup>;
- b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

**2.3. Public availability of the procedures for interconnection negotiations:**

The procedures applicable for interconnection to a major supplier will be made publicly available.

**2.4. Transparency of interconnection arrangements:**

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

---

<sup>1</sup> Suppliers of services or networks not generally available to the public, such as closed user groups, have guaranteed rights to connect with the public telecommunications transport network or services on terms, conditions and rates which are non-discriminatory, transparent and cost-oriented. Such terms, conditions and rates may, however, vary from the terms, conditions and rates applicable to interconnection between public telecommunications networks or services.

<sup>2</sup> Different terms, conditions and rates may be set in the Community for operators in different market segments, on the basis of non-discriminatory and transparent national licensing provisions, where such differences can be objectively justified because these services are not considered "like services".

2.5. Interconnection : dispute settlement:

A service supplier requesting interconnection with a major supplier will have recourse, either :

- a) at any time or
- b) after a reasonable period of time which has been made publicly known to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. UNIVERSAL SERVICE:

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4. PUBLIC AVAILABILITY OF LICENSING CRITERIA:

Where a licence is required, the following will be made publicly available:

- a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence and
- b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. INDEPENDENT REGULATORS:

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. ALLOCATION AND USE OF SCARCE RESOURCES:

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

**ADDITIONAL COMMITMENTS BY THE EUROPEAN COMMUNITIES  
AND THEIR MEMBER STATES**

**INSURANCE**

- a) The European Communities and their Member States note the close co-operation among the insurance regulatory and supervisory authorities of the Member States and encourage their efforts to promote improved supervisory standards.
- b) Member States will make their best endeavours to consider within 6 months complete applications for licenses to conduct direct insurance underwriting business, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country. In cases where such applications are refused, the Member State authority will make its best endeavours to notify the undertaking in question and give the reasons for the refusal of the application.
- c) The supervisory authorities of the Member States will make their best endeavours to respond without undue delay to requests for information by applicants on the status of complete applications for licences to conduct direct insurance underwriting business, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State by an undertaking governed by the laws of a third country.
- d) The European Communities and their Member States will make their best endeavours to examine any questions pertaining to the smooth operation of the internal market in insurance, and consider any issues that might have an impact on the internal market in insurance.
- e) The European Communities and their Member States note that, as regards motor insurance, under EC law as in force on 31 December 1997, and without prejudice to future legislation, premiums may be calculated taking several risk factors into account.
- f) The European Communities and their Member States note that under EC law, as in force on 31 December 1997, and without prejudice to future legislation, the prior approval by national supervisory authorities of policy conditions and scales of premiums that an insurance undertaking intends to use is generally not required.
- g) The European Communities and their Member States note that under EC law, as in force on 31 December 1997, and without prejudice to future legislation, the prior approval by national supervisory authorities of increases in premium rates is generally not required.

**OTHER FINANCIAL SERVICES**

- a) In application of the relevant EC Directives, Member States will make their best endeavours to consider within 12 months complete applications for licenses to conduct banking activities, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country. In cases where such applications are refused, the Member State will make its best endeavours to notify the undertaking in question and give the reasons for the refusal of the application.
- b) Member States will make their best endeavours to respond without undue delay to requests for information by applicants on the status of complete applications for licenses to conduct banking activities, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country.
- c) In application of the relevant EC Directives, Member States will make their best endeavours to consider within 6 months complete applications for licenses to conduct investment services in the securities field, as defined in the Investment Services Directive, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country. In cases where such applications are refused, the Member State will make its best endeavours to notify the undertaking in question and give the reasons for the refusal of the application.
- d) Member States will make their best endeavours to respond without undue delay to requests for information by applicants on the status of complete applications for licenses to conduct investment services in the securities area, through the establishment in a Member State of a subsidiary in accordance with the legislation of that Member State, by an undertaking governed by the laws of a third country.

## Understanding on the scope of coverage of CPC 84 - Computer and Related Services

1. CPC 84 covers the basic functions used to provide all computer and related services: computer programs defined as the sets of instructions required to make computers work and communicate (including their development and implementation), data processing and storage, and related services, such as consultancy and training services for staff of clients. Technological developments have led to the increased offering of these services as a bundle or package of related services that can include some or all of these basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions.
2. Computer and related services, regardless of whether they are delivered via a network, including the Internet, include all services that provide:
  - consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems; or
  - computer programs defined as the sets of instructions required to make computers work and communicate (in and of themselves), plus consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programs; or
  - data processing, data storage, data hosting or database services; or
  - maintenance and repair services for office machinery and equipment, including computers; or,
  - training services for staff of clients, related to computer programs, computers or computer systems, and not elsewhere classified.
3. **Computer and related services** enable the provision of other services (e.g., banking) by both electronic and other means. However, there is an important distinction between the enabling service (e.g., web-hosting or application hosting) and the content or core service that is being delivered electronically (e.g., banking). In such cases, the content or core service is not covered by CPC 84.
